PHEN Church Partnerships Support Educational Outreach

This PHEN initiative connects each church partner with prostate cancer educational resources that are always available for their members. Churches no longer have to wait for a health fair, or a special program to address the urgent prostate cancer crisis with their members and communities.

Key Features and Benefits

- This initiative uses PHENChurch.org to provide a custom online portal for each church partner with a video message or quote from the pastor or church leader.
- Church members utilize the church portal for “Ever-Present” access to prostate cancer educational resources.
- Churches use the portal for communications, to order PHEN materials, and to print flyers for distribution within their community and for special events.

The Prostate Health Education Network (PHEN) is a 501(c)(3) organization founded in 2003 by Thomas A. Farrington, a Black prostate cancer survivor, with a mission to eliminate the prostate cancer racial disparity.
